2

 **DUNLOP**

WHAT'S NEW THIS ROUND?

The performance and consistency of Dunlop's tires helped to create some thrilling action in the 2023 24H Spa EWC Motos. But with the race now in its third year at Spa, the 2024 edition introduces a new challenge as the duration has been reduced from 24 hours to just 8 hours.

At Spa, Dunlop will support 4 Formula EWC teams, and all 23 teams competing in the highly competitive Dunlop Superstock category.

Dunlop will bring 2000 tires to Spa with a team that includes six track support engineers working directly with every team across both classes.

LAST YEAR'S RESULTS

Last year, Dunlop tires were the choice of the third-placed BMW Motorrad World Endurance Team #37, with French outfit National Motos #55 Honda winning in the highly competitive Superstock class. The success of Dunlop teams last year, as well as the winning standards set by the #37 BMW in 2022, will undoubtedly be targets for teams and riders up and down the pitlane this year.

Spa-Francorchamps is one of the world's classic race circuits, beloved by riders and spectators alike. The longest track on the EWC calendar, Spa offers a unique challenge for both teams and riders due to its mix of long straights, challenging fast corners and famed elevation changes; all of which can easily catch riders out.

Spa therefore allows riders to push their bikes to the limit – if it's dry, that is. The size of the track and the nature of the changeable Belgian weather means it can sometimes be raining on one part of the track and dry on another, meaning grip can vary from one corner to the next.

Spa also features arguably the most famous sequence of corners in the world; Raidillon and Eau Rouge. Passing through this section of the track is exhilarating for riders as they skillfully flick left, right and up the hill through Raidillon.
