WHAT'S NEW THIS ROUND?

In 2024, Dunlop supports four Formula EWC teams, including the No. 37 BMW and No. 99 KM99 Yamaha team.

Since 2022, Dunlop has been the sole tire manufacturer for the Superstock Trophy. At Le Mans 31 teams, including 6 new entrants, will race in this highly competitive class.

Dunlop will bring six trucks carrying 3,400 tires to Le Mans, with a team made up of seven track support engineers working directly with every team and two teams of eight tire fitters working in shifts throughout the race.

BEST LAP TIMES

Teams recently completed two days of testing at Le Mans, giving an indication of typical lap times ahead of race week.

GRAINING RISK

The Le Mans Bugatti circuit is a highly prestigious and historic venue situated in the Pays de la Loire region of France. The track stretches over 4.2 kilometers, offering 14 turns that test the skills of even the most experienced riders.

Surrounded by picturesque French countryside, the Bugatti circuit offers a challenging experience for the riders. The venue boasts numerous grandstands and vantage points that provide stunning views of the action for fans.

To honour the circuit's rich racing heritage and Dunlop's historical motorsport success at the venue, turn 2 was named the Dunlop Curve (Courbe Dunlop), and the iconic bridge which crosses the track between turns 4 and 5 named the Dunlop Bridge.

The circuit has low grip levels compared to other tracks on the calendar, which are exaggerated in the wet. Right-hand turn 6 and left-hand turn 7 typically create the highest energy levels in the rear tire, but over the whole lap excessive heat generation isn't normally a problem.

Managing tire performance through varied conditions, day and night, is key to winning a 24-hour race like Le Mans.
